Foreword

The marked success of our handling of the WORLD'S GREATEST COLLECTION of UNITED STATES SILVER COINS has resulted in this new auction sale offering the gold counterpart of the same collection.

Never before has there been offered so complete a listing of gold coins from the regular United States series. Truly, it is the WORLD'S GREATEST COLLECTION of UNITED STATES GOLD COINS.

The series of Gold Dollars, quarter eagles and three dollar gold pieces are complete; one eagle is missing as are four double eagles and a few half-eagles. Included are such outstanding rarities as the 1841 quarter eagle as well as the 1863. The 1875 Three Dollar Gold piece, the 1858 Eagle, the 1883 double eagle and yes—the 1854-S half eagle—these are all offered.

Other features of this sale and catalogue are: space for the insertion of prices realized alongside the estimates (See inside front cover), actual photographs of the coins being sold, and a Friday night - Saturday afternoon sale for the convenience of out-of-towners. You can get to New York Friday afternoon and leave on Saturday. It's a numismatic event you won't want to miss!

1841

This Quarter Eagle of the Philadelphia Mint is one of the outstanding rarities in Numismatics. According to the mint records no quarter eagles were struck in Philadelphia in 1841. Apparently a few were struck for private collections. Edgar H. Adams in his Official List published in 1909 states that he knew of only two specimens of this coin. One was in the Mitchelson Collection and this collection subsequently became the property of the State of Connecticut. The other is in the United States Mint Collection. Naturally these two specimens are out of the market and not available to private collectors.

Since Mr. Adams published his list, four or five specimens have been discovered, and in 1930 one was reported sold at private sale for \$3,000. Though all reports about other specimens indicate the existence of proof lustre, none has been put forth as brilliant proofs—UNTIL NOW. This breath-taking example is a BRILLIANT PROOF and as such is probably UNIQUE.

While it is not quite as rare as the "King of American Gold," namely the 1822 Half Eagle, it is just as beautiful and this specimen in proof condition is just as difficult to obtain. We cannot pretend to estimate with any degree of accuracy what this rare gem will realize. In connection with our comparison to the 1822 Half Eagle however, we might add that the NUMISMATIC GALLERY has recently sold the 1822 at private sale for \$14,000.

As for the 1841, we can only advance our congratulations to the successful bidder. He will own this coin with the certainty that no one can match it.

---------------------------	--------------------------

312—1795. First year of issue. Small eagle. There has come to our attention various die varieties of this date and many collections include several. In New York several collectors have made specialties of these varieties. Unfortunately, there is no standard work by which these can be attributed. The varieties listed in this catalogue are grouped first by style of date (wide or close) and then by other variances. The first type has a wide date, the tip of the 5 just touches the bust. The Y in LIBERTY touches one point of the nearest star, the L touches the Cap and the hair touches one point of the lowest star. On the reverse, the U N I T, last S, E R, and A, touch leaf, branch, wings and wreath depending on their respective positions. The AME are joined at base. A superb uncirculated specimen. Worth over

The 1822 Half Eagle

We are not privileged with the opportunity to offer this outstanding rarity. The 1822 Half Eagle was never included in this Collection, but that statement can be applied to almost every great collection ever formed.

As far as is known, there are but three specimens of the 1822 Half Eagle. One is in the United States Mint Collection—and this leaves but two. In 1941, one of these was offered in the Dunham Sale. Mr. Dunham had acquired it in 1906 in the Sale of the Harlan P. Smith Collection sold by S. H. and H. Chapman for a record price of \$2,165.00. Apparently, this coin was destined to set record prices for United States Coins, for in the Dunham Sale it sold for \$11,575.00.

Now, again the record price for a single coin involves the 1822 Half Eagle. The NUMISMATIC GALLERY proudly records the private sale of the Brand Specimen of the 1822 Half Eagle for \$14,000.00. Up to this writing, the highest price ever paid for any individual coin, it reposes in the cabinet of one of America's outstanding collections.

In point of rarity this item is perhaps the rarest of United States Coins. As a matter of fact, only two specimens are known and this is the better of the two. It is extremely fine with sharp lettering, date, and features. There is no reason why this coin should not bring more than the 1822 Half Eagle at the present time. Up to now the demand has not been such that this coin would bring a record price. We know that the demand exists today. Several magnificent collections have been built up during the past three or four years and all but one of the collections lack this 1854 San Francisco Mint Half Eagle. We anticipate keen competition, for these outstanding collectors realize that here is truly a "chance in a lifetime." Once the auctioneer cries "So'd," the coin will probably not be offered again during this generation. Your estimate is as good as ours. In point of value, it should exceed the 1822 which only recently sold for \$14,000.00.

1921

A brilliant uncirculated gem. In its last appearance, at the Bell Sale, the 1921 Double Eagle sold for \$1,125 00. We believe that this coin will continue to climb, for from the standpoint of rarity, it compares favorably with such double eagles as the very high relief 1907 St. Gaudens which has records up to \$2,800 00. Conservatively, we estimate
